

Can I Come Too?

Words and music by Jenica Rayne © 2014

do you need a break from your life?
are you tired of the grind and being uptight?
a day job sure takes its toll
it's time to lose your blues and
recharge your soul

don't sit alone
don't wait for the phone
just say
can i come too? (*can I come too?*)
can I come too?
where the water's warm and the sun is hot
the beer is cold and we dance a lot
can i come too? (*can I come too?*)
can I come too?

happiness can follow your feet
walk beside you
fill the spaces in between
there's not a cloud
it's all blue
yeah the sunshine
will follow you too

don't sit alone
don't wait for the phone
just say
can i come too? (*can I come too?*)
can I come too?
where the water's warm and the sun is hot
the beer is cold and we dance a lot
laughter's music fills the air
rich or poor
it don't matter
cause we don't care
just say
can i come too? (*can I come too?*)
can I come too?
i know you want to just say
you do

you do

watch the palms
swaying in the breeze
the water sparkles
fresh and clean
you can spend the day
staring at your toes
swim with the fish
take off your clothes

ah

can i come too? (*can I come too?*)
can I come too?
where the water's warm and the sun is hot
the beer is cold and we dance a lot
laughter's music fills the air
rich or poor
it don't matter
cause we don't care just say
can i come too? (*can I come too?*)
can I come too?
i know you want to just say
you do
can I come too?
