

Your Wish Is My Command

Words and music by Jenica Rayne © 2014

running barefoot through the grass
hand in hand
we were young then

building castles in the sand
on a distant foreign land
your wish is my command

we pricked our fingers
made a vow
eye to eye
we'd never tell
we were warriors

find the path
down by the lake
to the fort there
we'll be safe
from the destroyers

hold on to that thought
don't let it slip away
hold onto that dream
don't stand in your own way
fantasy and fairy tales
dreams come true
when you want them to

close your eyes
we're hand in hand and
your wish is my command

close your eyes
let's tap in
let's take a walk
let's remember
what we forgot

the innocence
of being friends

we had no lovers
way back then

we could dance
from our bellies
we'd soar
through the sky
we were rich
we discovered
the true essence
of our lives

close your eyes
close your eyes
close your eyes
we're hand in hand and
your wish is my command

you opened your eyes too quickly
the spell was broken
you opened your eyes too quickly
20 years frozen
30 years frozen
40 years....
50 years frozen
